<b>Question</b>	<b>Answer</b>
Dinner for four - you and what other three people (living or deceased)?	Elon Musk, Alan Shilke, and Brendon Urie
Best movie, book, TV series?	Book: Harry Potter, Movie Series: Star Wars, and TV: Spongebob
What are you most proud of thus far in your life?	I am most proud of the difference i have made for others throughout my life.
What are your plans after high school? If going to college, what college (if you know) and what do you want to study there?	I am going to attend The University Of Scranton, I will be studying Mechanical Engineering.
What is your favorite school subject? Why?	My favorite subject is Science, specifically Lab and AP Physics. The teachers have all been amazing, and I love to learn about how things move and why they move the way that they do. Physics is also a large part of my major, Mechanical Engineering, but also what I hope to do post-college, designing Roller Coasters or other amusement rides.
Who is/was your favorite teacher (could be any teacher, all the way back to grade school even) and why?	My favorite teacher has been Ms. Garcia-Gordon. She teaches my favorite class, AP Physics, and she has a very fun personality. She isn't afraid to laugh, she makes everyone feel welcome, and she is just amazing to be around!! She was a person I could always talk to, If I had the option to take her again I would do it in a heartbeat, and I would tell that to anyone currently in High School.
What person has had the greatest influence on you and why?	The person, or people rather, who had the greatest influence on me are definitely Mr.Gluckman and Mr.Turkot for their Parallels class. Their class taught me how to analyze the world around me in a different light, I learned how to better understand others, myself, and others points of view, which holds so much weight in today's world. This class framed me for success in the future, and I am forever grateful for what they have done to change my way of thinking. This is something I will take with me into the future as I continue to college and beyond.
What is your favorite food?	definitely Chocolate Chip Cookie Dough Ice Cream
If your life was made into a movie, what actor would you want to play you?	Tom Holland
What is one thing you cannot live without?	Coffee
Where do you see yourself in 10 years?	I see myself as a member of some amusement ride manufacturing team, either managing a team of engineers in the design and early stages of amusement ride design or being a

member of the team that proposes a project to a possible client (Amusement Park).

Parting words - advice for those you leave behind as you spread your wings and move to life beyond HTHS.

When you look back on your life, would you rather be saying "I wish I did that" or "I did that". life is lived in experiences, try anything once. Try it even if you don't know if you will like it. If you try it once, you can look back on it and say either "I did it, and I loved it" or "I did it, but I didn't enjoy it, but I can at least say that I did it". Anything experienced is a story to tell at college or to your kids. I wish I would have thought about that when I was a freshman or sophomore. I wish I would have joined in a musical, or joined a sport, or joined a club, but my fear of not liking it kept me from even trying, don't let fear hold you back, try as much as you can in HTHS.
