

HADDON TOWNSHIP BOARD OF EDUCATION

Broadcast

Dear Parents, Guardians, and Staff,

Governor Murphy has permitted school districts with the flexibility to lift face-covering requirements in cases where there is extreme heat. So, effectively immediately, **masks will no longer be required for students and staff when participating in activities outside for the remainder of the school year.**

Since all of our indoor learning spaces are climate-controlled and airconditioned, masks will still be required when indoors.

If you have any questions about COVID-19 vaccines or other health-related topics, please contact your child's school nurse. Thank you very much, and have a great day.

-Regards,

Robert J. Fisicaro, Ed.D.
Superintendent
